# Regulatory Tracking Summary

---

*4 May 2012*

This report summarizes regulatory items reviewed by the NASA RRAC PC. Items that appeared to have limited interest to the NASA community, or are provided for information only, are shown in light gray text. Notes and comments by the RRAC PC are shown in bold, blue text under "Description." Related documents and citations, such as "77 FR 51967," are linked to the appropriate document for quick access. Suggested follow-up actions are noted with significant items; users are advised that other follow-up actions may be appropriate for their program or facility. Previous issues of this regulatory summary are archived on the RRAC PC website at <http://www.nasa.gov/offices/rrac/home/>. Comments, questions, suggestions, and requests for further information should be directed to the RRAC PC Manager, Sharon Scroggins at 256-544-7932 ([sharon.scroggins@nasa.gov](mailto:sharon.scroggins@nasa.gov)).

## 1.2 Other News and Developments

### 1.2.1 Federal Energy Management Program Training

FEMP offers online and classroom training on energy requirements, best practices, and emerging technologies. Upcoming training categories include the following:

- Design, operations, and maintenance
- Energy-efficient products
- Energy management
- Financing
- Fleet
- GHG laws, regulations, and guidance
- Renewable energy;
- Water efficiency

The FEMP [website](#) provides additional details, including registration information, about each of the classes and seminars available.

### 1.2.2 Call for Abstracts–2012 GreenGov Symposium

On 24 April 2012, the White House Council on Environmental Quality (CEQ) and the Association of Climate Change Officers (ACCO) announced a [call for abstracts](#) for the third annual GreenGov Symposium. The deadline for abstract submittal is 01 June 2012. CEQ and ACCO seek presentations that highlight environmental leadership in the federal and private sectors and that can be applied effectively throughout the federal community.

Abstracts should address one or more of the following categories:

- Clean energy
- Climate risk and resilience
- Fleet management and vehicle technology
- Green and sustainable facilities
- Education and engagement
- Greening the supply chain
- Information technology and electronics
- Sustainable communities
- Waste and water

Further information about topics of interest and conference registration details are available on the GreenGov [website](#).

### 1.2.3 NEPAAssist Web Application

EPA has released NEPAAssist, an online web application that federal project planners can use to view and screen various environmental assessment conditions in a defined project area. The data available to planners are dynamic and draw upon several publicly available federal, state, and local resources to provide a comprehensive view of environmental constraints that must be evaluated during the NEPA process. This ability to quickly identify areas of concern is intended to help planners map projects during the early stages of design and development. NEPAAssist also is available to private citizens and stakeholders for use during NEPA-required public review periods. The webtool and additional information are available on EPA's NEPA [website](#).

### 1.2.4 Reciprocating Internal Combustion Engine Regulatory Training (Web-based)

EPA is offering a web-based course regarding air quality regulations related to RICE. The training will provide an overview of requirements for stationary RICE, available compliance tools, a discussion of potential revisions, and an opportunity to ask questions. The course will be offered twice, on 14 June 2012 and 20 June 2012. Those interested in participating can register at EPA's [website](#).

## 1.3 NASA Regulatory Communication Working Group Updates

Regulatory Communication Working Group calls in 2012 will be held on the following Wednesdays at 10 a.m. CT:

- 16 May
- 20 June
- 18 July
- 15 August
- 19 September
- 17 October
- 21 November

## 2.0 State Regulatory Reviews

The following sections provide details about the regulatory actions reviewed for selected states in which NASA facilities and related operations are located.

### 2.2.1 Low Carbon Fuel Standard

On 23 April 2012, the Ninth Circuit U.S. Court of Appeals issued a stay overturning an injunction blocking enforcement of the Low Carbon Fuel Standard. This decision allows the ARB to continue implementation and resume enforcement of the Low Carbon Fuel Standard to reduce GHG emissions. More information regarding the implications of this decision is available on the [ARB website](#).

### 2.2.2 California Air Districts Regulatory Review

#### 2.2.2.1 Antelope Valley Air Quality Management District

No regulatory items of interest were identified during this reporting period for the [Antelope Valley Air Quality Management District](#).

#### 2.2.2.2 Bay Area Air Quality Management District

No regulatory items of interest were identified during this reporting period for the [Bay Area Air Quality Management District](#).

### 2.2.2.3 Eastern Kern Air Pollution Control District
